The elevator goes to a height of approx. 1,5m. When the elevator is up, the startup representative can **ring a bell** similarly as is done when a company goes public on the stock market.

The startup representative has exactly 2 minutes for the pitch. After the time has elapsed, the elevator goes down again, regardless of whether the startup has finished its pitch or not.

The gastronomic part of the event consists of a raclette buffet (sponsored by the Swiss Embassy in Portugal) and finger food.
